

Training & Upskilling farmers for AF Working group

REFOREST

Follow us for updates

CONNEN

Who you will meet there

ReForest **project partners** involved in model/tool development

Researchers and stakeholders from **ReForest Living Labs**

Experts in farmer decision support

Motivation & Objectives

This group works to enhance the accessibility of tools for designing agroforestry systems and:

Promote the adoption of AF systems

Provide **decision support** for designing agroforestry systems

Activities

Share **best practices** across countries on farmer decision support

Design the **ReForest Decision Support Tool** (DST)

Inform and review the DST's development

Ground-test the DST in Living Labs

Deliver **training** on designing and measuring agroforestry systems

Main Outcomes

A **practice abstract**

Ground-tested on-farm **decision support and modelling tools**

Support the **wider adoption and performance measurement** of agroforestry systems.
