Parameterizing dynamic tools for country or **living lab-specific agroforestry** systems Working Group

REFOREST

Who you will meet there

The work in the group is organised in country-specific sub-groups including:

🌳 **Living Lab leaders and farmers**

🌳 Researchers

🌳 Expert **consultants** specialising in specific types of agroforestry systems

Motivation & Objectives

- Modelling Living Labs through **Decision Analysis** (DA)

- Enhancing **agroforestry systems modelling** for practical applications

Activities

- Conduct subject-specific events

- Share knowledge on agroforestry system modelling

- Develop actionable insights from Living Lab data

Main Outcomes

- Refined **models of living labs** based on DA

- Increased **knowledge** for improving agroforestry system adoption and performance

Register now and **join** the group!
